

## Handout 7-A

## Types of Biblical Prophets

Having read the Introduction to Chapter 7, brainstorm a list of the prophetic books that belong in the chart below. You should only rely on your memory. Fill in as many as you possibly can remember. The number of names under each heading is indicated in parenthesis. You will receive one point for each prophet you correctly list and lose one point for each name you list that is not a prophet, such as patriarch or a king.
