

GOOGLE FORM TEST INSTRUCTIONS

PLEASE BE SURE TO FOLLOW THESE STEPS FOR CORRECT USAGE:

1. Each link will automatically prompt you to **Make a Copy** of the Google Form.
2. Click and save this personal copy of the Form to your Google Drive.
3. Edit the Form as desired (i.e. change questions, adjust points, modify answer keys.)
4. Click Share send to send this personal (edited) copy of the Form to students.
5. Do not share the links on this page; otherwise, a new test will generate every time a student opens it and you won't have access to them!

IMPORTANT TIPS FOR USING GOOGLE FORMS:

1. To prevent cheating on Google Forms quizzes, common suggestions include adjusting the Settings for shuffle answer order and lock mode.
2. You can also add sections to your quiz to prevent students from previewing a Form before class. (This is a common problem if you post your quiz through Google Classroom to all of your sections early in the day.)
3. You can take suggestion 2 (above) further by adding a password to your form to prevent students from moving ahead until you are ready. An easy way to do this is to collect their personal information (name/section) on the first page of the form, but require a password before they can access the quiz question.
4. To create a password:
 - a. Create a **Section 1** solely for the password. Add a question asking users to "Enter the password" and set the question type to **Short answer**.
 - b. Click the **three vertical dots** (more options) in the bottom-right corner of the question and select **Response validation**
 - c. Set the validation rule to **Regular expression -> Matches** (or **Text -> Contains**), then type your secret password in the text box. Note that this is case-sensitive.
 - d. Type a **Custom error text** (e.g., "Incorrect password, please try again") so users know why it won't let them proceed
 - e. Toggle on the **Required** switch at the bottom of the question.
 - f. Click the **Add section** icon in the floating toolbar to create **Section 2**, where the actual test questions will live. Respondents cannot advance past Section 1 until they type the exact matching password
