### A Picture Is Worth a Thousand Words

Below is a list of scenes from the book of Genesis. Choose four of the scenes and place your choices on the appropriate lines. Then, on the back of this sheet, draw the scene you chose in the corresponding picture box. Do not write anything or mark your choice in any way that would identify your picture and your choice. After you are finished drawing, exchange sheets with a partner. Try to figure out which scenes from Genesis your partner chose to draw. Then check the front side of your partner's sheet to see if you are right.

Choose any four:

- |                     |                     |
